Black & White

Concrete is transformed into a tile with a distinctive urban mood. MILE®*stone*'s Black & White collection consists of three chic modern colors. The minimalistic smoothness and the solid color of the surface make the series perfect for contemporary projects with an urban feel. The collection offers three tile sizes coordinated with mosaics and trims that give it the ability to fit into any context and to be adaptable to a variety of aesthetic and functional needs. A minimalist style designed to inspire and surround commercial or residential surfaces.

Black & White / COLOR BODY PORCELAIN MADE IN THE USA.

V1

UNIFORM
Differences among pieces from the same production run are minimal.

V2

SLIGHT VARIATION
Clearly distinguishable differences in texture and/ or pattern with similar colors.

V3

MODERATE VARIATION
While the colors present on a single piece of tile will be indicative of the colors to be expected on the other tiles, the amount of colors on each piece will vary significantly.

V4

SUBSTANTIAL VARIATION
Random color differences from tile to tile, so that one tile may have totally different colors from that on other tiles. Thus, the final installation will be unique.

Progress that invests in the entire society

As an active member of the U.S. Green Building Council, MILE®*stone* spreads awareness to the community and encourages the use of building solutions through environmentally friendly practices.
Our products positively contribute to the requirements for obtaining the LEED (Leadership in Energy and Environmental Design) and WELL (IWBI) certifications.

A commitment to environmental sustainability and responsibility

We are committed to conscious development that minimizes the negative impact of manufacturing production on the environment. Our general approach to sustainability intersects with our business strategy to embrace three areas of responsibility: economic, social, and environmental. Some ways we prove this are:

- Products containing as much as 64% recycled content.
- Zero industrial wastewater discharge.
- A 99% internal process recycling rate.
- 100% regionally sourced raw materials used in the production of the body of our tile, supporting local industries and sustainable practices.

MILE®*stone* is taking these and other steps, as well as actively investing to reduce carbon emissions to ensure that we reach full carbon neutrality.
